
CLIENT QUERY MANAGEMENT SYSTEM

By Shigil S

INTRODUCTION

- Overview of a web-based platform designed to manage client queries efficiently.
- Key features include user authentication, role-based access, query tracking, and analytics.

USER AUTHENTICATION INTERFACES

Login Screen

- Fields: Username and Password (with visibility toggle).
- Actions: Login and Register.

USER AUTHENTICATION INTERFACES

Registration Screen

- Fields: New Username and New Password.
- Actions: Create Account and Back to Login.

ADMIN DASHBOARD

User Role Management

- Sidebar: Displays logged-in admin and logout option.
- Table: Lists all users with their roles (admin, client, support).
- Role Assignment: Form to update user roles via dropdown.

Admin Dashboard ↵

All Users:

	ID	Username
0		1 admin_user
1		2 client_user
2		3 support_user
3		4 Shigil

Assign Role to User

Username to Update Role

Select Role

admin

Update Role

A screenshot of a dark-themed web application interface titled "Admin Dashboard". At the top, there's a back arrow icon. Below it, the heading "All Users:" is displayed above a table. The table has three columns: an empty column, "ID", and "Username". It lists four rows with IDs 0 through 3, corresponding to usernames: "admin_user", "client_user", "support_user", and "Shigil". Below the table, there's a section titled "Assign Role to User" with a "Username to Update Role" input field containing the placeholder text "Shigil". Underneath this is a "Select Role" dropdown menu with the option "admin" selected. At the bottom of this section is a "Update Role" button.

QUERY SUBMISSION & TRACKING

Submit New Query

Email

Mobile Number

Query Heading

Query Description

My Queries

	Query ID	Client ID	Email	Mobile Number	Query Heading	Query Description	Status	Created Time	Closed Time
0	Q5201	2	client@example.com	5289756263	Project	Should i Need add the data	Open	2025-12-04 09:47:05	None

Submit New Query

- Input fields: Email, Mobile Number, Query Heading, Query Description.
- Action: Submit Query.

My Queries Table

- Displays user's submitted queries.
- Columns: Query ID, Client ID, Email, Mobile Number, Heading, Description, Status, Created Time, Closed Time.
- Example: Query Q5201 is open and awaiting resolution.

Support Dashboard

	Query ID	Email	Mobile Number	Query Heading	Query Description	Status	Created Time	Closed Time
0	Q0001	shigel@example.com	1234567890	Bug Report	Tab focus jumps incorrectly.	Closed	2025-12-02 14:14:56	2025-12-02 14:15:31
